# Our Story

Driving Academy was established to create the best learning environment for all our students. Since driving is something we take very seriously. Our founder came from a family of teachers and professional CDL drivers. He has, practically, grown up in this business and, teaching and driving is in his blood. Our founder has developed a system of driver education that can help even the most challenged students. He has truly taken this industry by storm by putting fundamental education before anything else.

Getting a License is as easy as

**1. 2. 3.**

## 1. Pick a license to freedom

## 2. Pick a course to freedom

Flexible training options – You can pick your schedule around your needs

1. Earn a Permit  
Pass 1 written exam
2. Get Training  
6 Hour early bird or hourly adult training
3. Pass Road Test  
Use our car for your road test

## Practice Test Questions & Answers

# Air Brakes

---

We have provided a Sample of question that might come up for your written exam. These are not all the questions that will be on the test. For more sample questions or access to our online training course give us a call today.

*Hint: Correct answer is underlined.*

**1. The safety valve in the Air Compressor tank is set to open at:**

- A. 150 psi
- B. 200 psi
- C. 100 psi
- D. 175 psi

**2. The Air Compressor Governor controls:**

- A. when the brakes should be applied
- B. when the air compressor pumps air into the storage tanks
- C. when the warning light is activated
- D. when the air is released from the tank

**3. The Governor stops pumping air when it reaches the "cut out" level, or around:**

- A. 125 psi
- B. 200 psi
- C. 225 psi
- D. 175 psi

**4. The Governor allows the air to start pumping again when it reaches the "cut in" level, or around:**

- A. 200 psi
- B. 100 psi
- C. 150 psi
- D. 125 psi

**5. You should use the parking brake:**

- A. only on steep hills
- B. on level surfaces
- C. anytime you park
- D. when the brakes are hot

**6. An air tank is equipped with a drain valve to remove:**

- A. air and water
  - B. oil and air
  - C. water and oil
  - D. dirt and oil
-

**7. The Air Compressor is connected to the engine through:**

- A. gears
- B. hoses
- C. V belt
- D. both A and B
